THE REALITY

SAJIVA
NATURE CONSERVATION &
COMMUNITY EMPOWERMENT

Unfortunately, many farmers are still trapped in long distribution chains.

The greatest value is often
lost along the way.

Limited access

Farmers have limited access
to efficient distribution networks.

Value lost

Unfair pricing and multiple markups
reduce the value farmers receive.

It's time to build a better system
that connects farmers to fair markets
and returns value to those who deserve it most.

We are here to connect
Indonesia's land to the
international market.

Bringing farmers closer to the world,
and introducing authentic Indonesian
products to the global stage.

This is **just the beginning.**

There are still many villages,
many farmers, and many remarkable
people across the archipelago
waiting to be discovered.
